UNI-6SL

The UNI-6SL is an outdoor rock garden speaker built-in 70V/100V transformer. The 70V/100V transformer technique reduces line losses on longer distance and allows easy parallel connection of multiple loudspeakers. Thus the ADERTECH outdoor rock speakers support more than 600 pieces per installation sound system and the transformer technology helps the amplifier to loudspeakers distance up to more than 10km. The UNI-6SL built-in 6.5" waterproof coaxial PP speaker drivers are designed of wide frequency response 80Hz-16kHz, the multiple power taps of 30W & 15W could meet different outdoor area sound applications and ambient noise surroundings. The organic fiber glass reinforced composite enclosure of IP66 with stands of harshest abuse, heavy damage proof no color fade for many years outdoor like seashore & swimming pool use.

- Outdoor rock speaker with 100V transformer
- Designed for both background music & paging system
- Ideal for park, garden, green area and zoo 6.5” PP full range waterproof woofer
- Rated power output 15W-30W and max. 60W at 100V
- Waterproof level of IP66
- Line input 100V or 70V by cable tail with waterproof gland
- UV protected ABS enclosure in green
- Easy installation in outside ground
- Special design of 360 degree angle

Specifications:

Model	UNI-6SL
Description	Outdoor Rock Speaker
Rated Power Output	30W-15W
Speaker	6.5” PP full range waterproof woofer
Line Input	100V or 70V
Frequency Response	80Hz-16KHz
SPL(@1W/m)	94dB
IP Rate	IP66
Connector	By speaker cable tail with waterproof gland
Dimension	370×290×260mm
Material	UV protected ABS enclosure in green
Weight	4.9kg
