ALUME-Q8
ALUME-Q8W

ALUME-Q8 is a passive two-way professional column with a power of 240W RMS at 8Ohm. Case color black or white

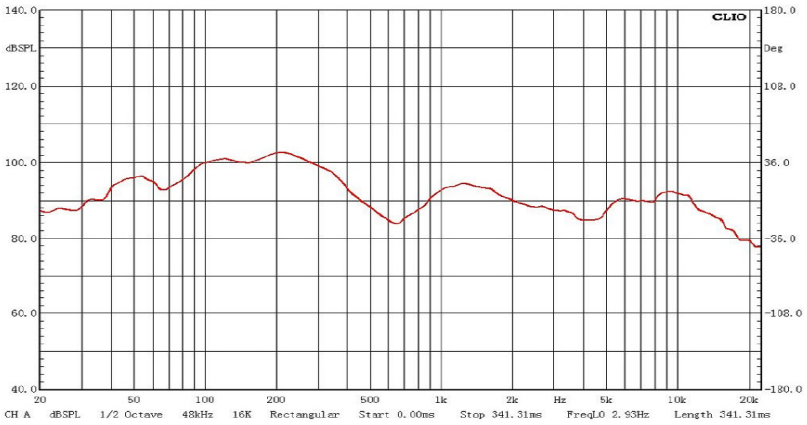

The largest of the ALUME series, the ALUME-Q passive column speakers offers maximum quality and the highest sound sensitivity and coverage, being able to reach between 91db to 100db depending on the model, with 120° x 90.

Like with the other series it comes in multiple orientations, and also includes a 1x4" The ALUME-Q series is a powerful solution with high-quality components, providing a simple and powerful solutoin for virtually every audio need. Whether it's a smaller installation or somewhere you need more power, it's lightweight and strong material makes this an ideal choice for your next project.

The ALUME-Q Passive Column speakers features a beautiful design, high quality components and a focus on language and sound reinforcement, making this one of the best choices for all kinds of sound installations with its many accessories.

Included:
Vertical wall mount

Freq Resp

Specification:

Type	Passive Column
Rated Power	240W
Nominal impedance Peak	8Ohm
Power	480W
Ways	1
Low frequency driver	8 x 4"
Effective frequency range	90Hz - 20KHz
Sound Pressure Level	126dB
Sensitivity	100dB, measured at 1W/m
Coverage angle Enclosure	120° x 90° (HxV)
material	Aluminum-magnesium alloy
Color	Black (ALUME-Q8), white (ALUME-Q8W)
Connection type	2x SPEAKON, 1x EURO BLOCK
Dimension (W*D*H)	138*160*1338mm
Weight	13.2kg
