FLOW-S101

FLOW-S101 is a passive two-way professional 10" speaker with a power of 320W RMS, has great dynamics, high sensitivity, produces clear and gentle high frequencies, transparent and full mids and rich low frequencies. Case color black.

- 1.34" tweeter and 10" woofer
- Multiple mounting points and installation options
- Durable powder coated metal grill
- Compatible Wall Bracket FLOW-BR1

FREQUENCY RESPONSE

FLOW-BR1

Specification:

SKU	**FLOW-S101**
Type	Professional Speakers
Rated Power	320W
Nominal impedance	8Ohm
Peak Power	1120W
Ways	2
Low frequency driver	10" ferrite woofer/ voice coil Ø51mm / magnetic steel Ø140mm
High frequency driver	1.34" ferrite compression driver/voice coil Ø34mm /magnet Ø100mm
Effective frequency range	60 - 20KHz
Sound Pressure Level	121dB / 131dB peak
Sensitivity	99dB, measured at 1W/m
Coverage angle	90° x 70° (HxV)
Enclosure material	High density MDF, 15mm
Surface treatment	Black glossy spot paint
Connection type	1x SPEAKON - input, 1x SPEAKON - link out
Mounting bracket	FLOW-BR1 (optional)
Dimension (W*D*H)	315*350*530mm
Weight	14 kg
