ALUME-SW12A

ALUME-SW12A is a active sub-woofer 12" 2x500 W with satellite output 500 W/4 Ohm

The ALUME-SW series subwoofers, combined with the ALUME-T sound columns with their sleek enclosures, make it easy to combine the loudspeakers with modern architectural decor. They can be used in conference rooms, lecture halls, exhibitions, courts, classrooms, auditoriums, shopping malls, lecture halls or private clubs. Various combinations and installation methods are available, and optional hanging accessories with adjustable angles can be used in any environment.

Compact design
Built-in Class D power amplifier
Connection of satellites
A wide range of brackets and additional accessories

Optional:
ALUME-T-CSFA-150 - adapter for mounting ALUME-T to ALUME-SW12A and ALUME-SW15A subwoofer
